

15 Year Pro-rated Limited Warranty "Non-Transferable" is issued on outdoor, residential, aboveground or onground non-diving liners

SAMPLE ONLY

THERE ARE NO WARRANTIES WHICH EXTEND BEYOND WHAT IS WRITTEN HERE.

PLASTIMAYD POOL PRODUCTS, hereinafter referred to as "THE MANUFACTURER," issues the following warranty. THE MANUFACTURER warrants that a Plastimayd aboveground or onground residential, non-diving pool liner will not leak due to a seam seal delamination, when the liner is subjected to ordinary use and when used in a pool which is sized appropriate to the liner size. If THE MANUFACTURER'S inspection confirms a claimed defect, THE MANUFACTURER will replace or repair at its option any liner found to be defective within the appropriate warranty term shown above and the PRO-RATED schedule below. Replacement or repair of a defective liner under this warranty is at THE MANUFACTURER'S option and does not include shipping and handling. The warranty is issued to the original consumer only and cannot be transferred. The warranty term begins at the date of installation and is PRO-RATED AFTER THE FIRST YEAR. Irregularities in printing, fading or tile alignment are specifically excluded from this warranty. Raw materials used in the fabrication of the liner are not produced by THE MANUFACTURER; therefore, any failure due to material defects must be referred to the manufacturer of the raw materials.

THE MANUFACTURER shall not be responsible for any damage or defect to the liner which results from fire, insects, animals, floods, acts of God, or from an act or acts of others, and THE MANUFACTURER shall have no liability to replace or repair any liner that is so damaged.

IN ORDER FOR THE WARRANTY ON THIS LINER TO BE IN EFFECT YOU MUST:

- A. Apply the Non-Diving Decals per the instructions in the Aboveground or Onground Installation & Maintenance Guide.
- B. Completely fill in, sign and return the Limited Warranty Registration Certificate, located on the bottom of this Warranty and mail it within thirty (30) days of the installation of your liner to: Plastimayd Pool Products, P.O. Box 2320, Oregon City, OR 97045.
- C. Make sure the liner is installed in accordance with the Aboveground or Onground Installation & Maintenance Guide instructions included with this liner. THE MANUFACTURER is not responsible for improper installation which does not comply with these instructions. THE MANUFACTURER is not responsible for: tears, punctures, scuffed-off print, print distortion, discoloration, print removal caused by automatic pool cleaners, shipping damage, improper handling, or improper installation or storage.
- D. Make sure the liner is not exposed to excessive heat or cold, chemical abuse or lack of proper chemical maintenance. The temperature of the liner itself should be a minimum of 60° F or 16° C at the time of installation. Chemicals should not be allowed to settle undissolved onto the liner, as chemicals can bleach the color or liner pattern; for this reason, DO NOT USE floating chemical dispensers. Keep water circulating the entire time chemicals are dissolving in the skimmer. The pH of the pool water must be properly maintained. Stabilized chlorine products should be used to maintain the chlorine balance.
- E. Proper winterizing procedures must be followed: a pool cover must be on the pool during the period of the year when the pool is not in use.

THIS WARRANTY IS SUBJECT TO THE FOLLOWING TERMS AND CONDITIONS:

- 1. A through E above must be complied with in full.
- 2. The pool liner must be kept full of water at all times after installation. THE MANUFACTURER will not be responsible for any irregularities or imperfections which result to the liner due to the removal of water from the pool, or loss of water due to the structural failure of the pool.
- 3. This warranty is issued to the original consumer only and no other party may make claim against this warranty. The original consumer may make the claim directly to Plastimayd only when the selling dealer/distributor is not available to make the claim on the original consumer's behalf. **Otherwise, contact your dealer directly.** A claim must be made immediately after an alleged warranty problem occurs. At the time the claim is made, THE MANUFACTURER will require the original proof of purchase, the serial number, date purchased, date installed, and any other information or proof as may be requested.
- 4. THE MANUFACTURER will not be responsible for labor charges, cost of replacement water, replacement chemicals, or any other related damages that may occur. THE MANUFACTURER is not liable for incidental, consequential, contingent or any other damages.
- 5. This warranty is in lieu of all other expressed or implied warranties of THE MANUFACTURER and the selling dealer or distributor, including any implied warranty, merchantability or fitness for particular purpose. Neither THE MANUFACTURER, nor the dealer or distributor, assumes or authorizes any person to assume, on its behalf, any other obligations or liability.
- 6. Any liner replaced or repaired by THE MANUFACTURER shall be installed or re-installed at your own cost. THE MANUFACTURER will not assume liability for damages to persons or property caused by faulty installations.
